There are two kinds of people in the world. The 1st Type wants to be left alone while the 2nd Type will NEVER leave you alone.

The Dangers of the Covid Vaccines

Welcome all to the 3rd Issue of our Newsletter. Even though the signs are sprinkling through about the dangers of all the Covid vaccines, the media propaganda machines both in Ireland and all across the world are going into overdrive, trying to cover up all the horrific injuries and deaths they have caused thus far since its initial rollout on 8th December 2020 ([Source Link](#)). You can download PDF's @ www.whiteroseireland.com/trustmeagain which highlights the UK Government release on the Pfizer & AstraZeneca Vaccines. They detail thus far as of 21st March 2021, that there has been 330,663 injuries and 534 dead in the UK alone from both vaccines. On 4th January 2021 the first AstraZeneca vaccine was administered. So in just under 4 months these vaccines have caused irreversible injuries and death in the UK alone.

Covid Vaccines

There have been 3,000+ side effects from the Covid Vaccines in Ireland and no deaths reported ([Source Link](#)). So either the UK Government has a faulty vaccine system and are reporting lies, or the Irish Government have a remarkable vaccine system that tells the truth, where there has been no reported deaths from their use in Ireland. But the question on everyone's lips in both Ireland and the UK should be - Why are there still lots of cases and deaths in Ireland & UK if these vaccines are so spectacular? Let's examine their CEO's and the former Vice President of Pfizer.

Pfizer CEO

AstraZeneca CEO

About Pfizer & AstraZeneca CEO's
Albert Bourla (Greece) born 1962 is the CEO of Pfizer. He has been with the world's largest pharmaceutical company since he was 25 years of age. His current wealth is \$26.5 million dollars and is paid \$17.9 million dollars per year ([Source Link](#)). Pascal Soriot (France) born 1959 is the CEO of AstraZeneca. He has been their CEO since 2012 with a current wealth of \$29 million dollars ([Source Link](#)) and is paid \$19.7 million dollars per year ([Source Link](#)). The People of Ireland are completely oblivious to what's happening in the boardrooms of both Pfizer and AstraZeneca ([Source Link](#)).

Even though the People of Ireland can clearly view the evidence for themselves within this ([Source Link](#)), they choose to ignore it at their own peril. It's quite remarkable how government propaganda can fool the public into thinking any of the vaccine companies have the public's best interest at heart. "*Pfizer has faced thousands of lawsuits filed for medical injuries caused by some of its most popular drugs. It has also set a record for the largest fine paid for a health care fraud lawsuit filed by the U.S. Department of Justice. Pfizer paid \$2.3 billion in fines, penalties, and settlement for illegal marketing claims*".

Neither of these Covid vaccine companies are liable for injuries or deaths as a result of their products. This friendly arrangement with governments throughout the world is mind boggling. The public don't realize that they are part of the largest Medical Trial in world history and their Health Insurance companies will NOT cover any injury or death as a result of being part of this medical trial. An "experimental drug" is an "experimental drug" and no Covid Vaccine has been approved by any FDA or other regulatory body in the world. Do the People of Ireland think either of these CEO's have been vaccinated?

It Gets Worse Than You Could EVER Imagine

Before we first introduce you to the former Vice President of Pfizer, let's see what Dr. Tony Holohan said about the Swine Flu Vaccine of 2009, when it was found to have injured the People of Ireland. Speaking on Primetime in 2011 Dr Tony Holohan said, "*he was not concerned about the safety of the vaccination back two years ago, adding that it was the right decision at the time. This was an unusual situation...in order to have access to this vaccine, we had to pay at the price demanded by the companies and to also accept the liability,*" he explained. ([Source Link](#)). Yes Dr. Tony Holohan is your friend.

Distract The Public

While the general population of Ireland spend hours watching an ongoing US Trial, on something that is none of their business and has no bearing whatsoever on their own lives, mass human rights crimes are happening around them in Ireland and they are silent. While the uneducated People of Ireland line up in their hundreds of thousands for their poison - the vaccine companies are not liable, whether the injury or deaths occurs tomorrow, next week, next year or whenever. Each person vaccinated is part of a medical trial and they are a ticking time bomb. Let's see what the former Vice President of Pfizer has to say about all this.

Former VP of Pfizer Warns The World About Covid Vaccine

On 25th March 2021, the former Vice President of Pfizer Dr. Mike Yeadon went on record with America's Frontline Doctors (www.americasfrontlinedoctors.com) about the Covid Vaccines. Here is what he said. *"I'm well aware of the global crimes against humanity being perpetrated against a large proportion of the world's population. I feel great fear, but I'm not deterred from giving expert testimony to multiple groups of able lawyers like Rocco Galati in Canada and Reiner Fuellmich in Germany. There is no medical rationale for it. Knowing as I do that the design of these 'vaccines' results, in the expression in the bodies of recipients, expression of the spike protein, which has adverse biological effects of its own which, in some people, are harmful (initiating blood coagulation and activating the immune 'complement system'), I'm determined to point out that those not at risk from this virus" (anyone above 80 years of age) "should not be exposed to the risk of unwanted effects from these agents. It's my considered view that it is entirely possible that this (vaccine) will be used for massive-scale depopulation"* ([Source Link](#))."

Dr. Mike Yeadon

Reuters

When Medical Professionals Speak Out

Watch how the largest news organisation in the world (Reuters) tried to destroy him, when he had the courage to speak out about the Covid vaccines ([Source Link](#)). So Steve Stecklow & Andrew Macaskill who have no qualifications in medicine and wrote the hit piece about him, are telling the world that this man is telling lies. So we are to believe two hack journalists in Reuters, over the testimony of a former Vice President of Pfizer. Would Dr. Mike Yeadon be honored by Reuters if he were to go along with the industry and government narrative? Dr. Mike Yeadon even made statements on the mandatory face masks for the public in October 2020, citing studies conducted in 2015 which were ignored by all governments ([Source Link](#)). His statements about the dangers of the vaccine before roll-out across the world as indicated above were also ignored.

So the People of Ireland have one question to ask themselves. Based on the Swine Flu 2009 false pandemic vaccine injuries and Dr Tony Holohan's response in 2011 - who do you trust? A man that has put his entire career on the line by standing up for the public, or the Irish Government who are about to introduce the Chinese Social Credit System into Ireland through a Vaccine Health Passport? We will feature more about this in our next Newsletter?
