and killing for him. Go to our website to find real facts and research that you can verify yourself. The more you go down the rabbit hole the more crimes you'll find your Irish Government committed. Our Newsletter publishes fortnightly and will highlight individuals who may or may not have committed human rights crimes against the People of Ireland. On **4th of July 2021**, the People of Ireland will celebrate their **Independence Day** from the Irish Government.

The Nuremberg Trials

These trials brought to justice the political, military, medical, judicial and economic leadership of Nazi Germany. They took place between 20th Nov 1945 and 1st Oct 1946, providing a foundation for public servants to be tried for crimes against their own population and the populations of other nations. In particular, it showed how a small group of individuals followed orders without questioning authority. It is not Adolf Hitler that Europe should have feared back then. It is the **Doctors** and **Nurses** who gladly did the torturing

The 'Fourth Reich' Trials in Ireland

One of the greatest accomplishments of The Third Reich in Germany, was how they kept the German population in the dark, even though rumours circulated that human rights and other crimes were being committed. They done this through the media propaganda machine. It is no different today in Ireland. Censorship has enabled the media and government to completely filter all information and eradicate dissent and information that they do not agree with. For more info on these suggested trials visit our website.

Dr. Tony Holohan (C.M.O.)

Our 1st individual who needs to answer questions with regard human rights crimes is, the Chief Medical Officer, Dr. Tony Holohan. The 1st count relates to the **5th Human Right - No Torture. Nobody has any right to hurt us or to torture us.** The majority of the Irish population did not know who this guy was up until March 2020. However, Dr. Holohan has a long history of telling lies and manipulating data and the Irish population, of which first came to light during The Swine Flu False Pandemic of 2009, in which he personally claimed that over 1 million Irish people would die from the virus. Let's reveal the dark history of this psychotic medical parasite.

Billions of pounds have been wasted on swine flu vaccines that will never be used

Ministers said yesterday the flu hotline and website that make up the National Pandemic Flu Service will be closed from next week in what is the clearest indication yet that the outbreak is subsiding.

Fewer than 5,000 new cases of the H1N1 virus have been recorded every week for the past six weeks, down from a high of 100,000 last summer.

But as the NHS was taken off red alert, questions were asked over why so many doses of the vaccine were ordered but never used.

Swine Flu Scandal 2009

The Swine Flu Scandal of 2009

He and the Irish Government wanted to vaccinate the entire country against Swine Flu. Recent data as to how many Swine Flu vaccines were ordered in Ireland, has been removed by HSE Ireland since Mar 2020. The Daily Express reported on 5th Feb 2010, that the Department of Health UK ordered 132 million doses of swine flu jabs, so that every person could have two doses each (**Source:** <https://archive.vn/j0tw7>). Critics had been skeptical over why there was such panic back then. The Council of Europe accused drugs companies of forcing the World Health Organization to declare an emergency to sell more of their products. Dr Wolfgang Wodarg, the council's head of health, said the swine flu saga was a medical scandal, adding: "We had a mild flu and a false pandemic." Thankfully back in 2009, there was some genuine media who investigated this pandemic and in the end it was found that the World Health Organisation (WHO) collaborated

with governments and the pharmaceutical companies, to commit crimes against the people of the world. Not one person was convicted from any of these entities, nor received jail sentences for their crimes. Here on the left we have an image of Dr. Tony Holohan with a Swine Flu 2009 leaflet (**Source:** <https://archive.vn/wip/fl1A2o>). Just because he wears a suit or a white coat - does not mean you're not dealing with a monster.

We've been here before, haven't we Dr. Fauci?

Another famous character who was pushing lies with regard the Swine Flu 2009 Scandal, was none other than Dr. Anthony Fauci. Here he is on a Charlie Rose TV interview in 2009 (**Source:** <https://archive.vn/G8Nkq>). So remember, these two 'Anthony's' did not fall out of the sky in March 2020. They have both been here before. This time however, they've the media propaganda machine on their side - who question NOTHING, debate NOTHING, filter EVERYTHING. Remarkably since March 2020 not unlike Nazi Germany, we've one individual Mr. Holohan, controlling 4.9 million people in Ireland. Now that's power on a scale that would make even Adolf Hitler foam at the mouth! One should ponder how Mr. Holohan continued to be Chief Medical Officer subsequent to The Swine Flu Global Scandal? Would you trust him? Would you let him near you or your children after spreading the lies of 2009?

Are Face Masks Safe For The People of Ireland?

Over 2,300 years ago, long before Islam, Arabs discovered that forcing people to cover their nose and mouths broke their will and individuality and depersonalized them. Hence not long afterward, 'The Burka' was introduced to stop women becoming individuals. You don't know what emotion women are experiencing, hence the point of a Burka. Who knew governments from January 2020, could convince an entire world of not only women and children, but men also to wear a face mask? The governments are to be congratulated - it was pure genius.

It's Only A Face Mask!

Face Masks have become a perfect tool for governments around the world to divide a people, as well as demoralize them. The Face Mask is a symbol for all who obey orders. They've also divided the People of Ireland and thus far, the government have worked very hard at keeping this division. To settle this division The White Rose proposes a LIVE TV Experiment, in which a face mask placed upon three subjects namely: **a)** Dr. Tony Holohan, **b)** a child and **c)** an elderly person are tested for Carbon Dioxide levels. If the Chief Medical Officer who was guilty of lying to the People of Ireland in 2009 believes Face Masks are safe - it should not be a problem for him to prove it on live television. This experiment would take less than 5 minutes.

What if Masks Are Dangerous?

However, if it is shown (as indicated on our website), that face masks are dangerous to ALL humans on Earth and do indeed create the perfect toxic environment for lung cancer, then criminal charges surely need to be brought against Mr. Tony Holohan. The last 12 months has seen for the first time extensive research into long term use of surgical masks. What would happen if face mask manufacturers have been inflicting toxic levels of gas on its users since the 1960s? Could nurses, doctors and lab technicians sue every surgical face mask manufacturer, or were all medical professionals responsible for not checking the masks out themselves? After all, it only takes 60 seconds to visually see the horrific results on a Carbon Dioxide Digital Meter. This is indeed very dangerous territory for Mr. Tony Holohan. Check out our website @ www.whiteroseireland.com to learn how to test your face mask.
